A Clean Space Will Help The Install Run Smoothly If We Are Installing In A Fireplace Please Make Sure That All Grates, Wood, Ashes Are All Removed.

ELECTRIC

A Clean Space Will Help The Install Run Smoothly If We Are Installing In A Fireplace Please Make Sure That All Grates, Wood, Ashes Are All Removed.

Your Unit Needs Electricity To Run A Blower, This Needs To Be Installed By An Electrician Of Your Choice.

Thank you for your help our equipment is large and heavy we need clear space. If you need a stove removed, you can make arrangements with Embers at time of sale, otherwise it will need to be removed. We also have electricians and plumbers we can recommend. As a reminder in the cold months ice and snow on the pathway is very dangerous.
